BUSINESS PLAN

Section 1

Business Overview

Company-to-be Legal name: Thuraya

Company-to-be Business address: Riyadh, Kingdom of Saudi Arabia

Company-to-be Phone: 0509106514

Company-to-be E-mail: Thuraya.officail@outlook.sa

Description of the Business

Thuraya is smart tourism platform for tourism in Saudi Arabia aims to support Saudi Vision 2030 by making travel services modern and easy to use. Thuraya acts as a bridge between travelers and tourism businesses. Through Thuraya, users can explore different tourist destinations and learn about various tourist experiences within the Kingdom. Users can also book tourist packages and complete the online payment process securely. Thuraya revenue model is based on a commission-based system, when a user books a service through our platform, we receive a percentage of the payment from the service provider for every successful booking.

Major demographic, economic, social and cultural Factors

Demographic factor: in Thuraya We focus on both people living in Saudi Arabia and the tourists from other countries

Economic factor: Saudi Arabia is working to grow different parts of its economy. Thuraya part of the tourism sector, which is now worth billions of dollars and growing very fast

Social and Cultural factor: More Tourists today are interested in visiting local historic sites. Thuraya helps with this trend by showing the world Saudi culture and the famous hospitality of Saudi people.

Nature of the Industry

The tourism sector is one of the important sectors in the Saudi economy, and is witnessing continuous growth in recent years. The demand for tourism services may be higher during vacation periods, Riyadh season, Jeddah season and other seasons of other regions in Saudi Arabia. Also the events and public holidays. However, in Thuraya one of our goals is stay active all year. To make this goal happen we offer many different travel plans in various parts of the Kingdom. This helps us attract customers in every season, not just during the holidays.

Government Regulation

Thuraya follows all the rules from the regulations of the Ministry of Saudi Tourism and the Ministry of Saudi Commerce. We follow the Saudi E-Commerce Law By protect the rights of every customer who uses our website and We keep users personal information safe and private.

THE MARKET

Market Segment

Thuraya platform targets individuals interested in tourism within the Kingdom of Saudi Arabia, especially young people and adults who use the Internet and digital platforms to plan their trips. The platform also targets tourists and visitors wishing to discover tourist destinations and various experiences within the Kingdom.

Thuraya focuses on three main groups of travelers in kingdom of Saudi Arabia:

Local Travelers: These are Saudi citizens and people living in the Kingdom. This includes families and young people who want to go on weekend trips, visit historic sites, or enjoy local events

International Tourists: These are visitors from other countries They include:

- **Religious Travelers:** People coming for Umrah or Hajj who want to stay longer to see the country
- **Holiday Travelers:** People coming to see new Famous areas like Al-Ula, Diriyah, and the Red Sea project

Adventure Seekers: These are active people who love nature. They look for exciting activities like walking in the desert, hiking, and diving in the sea.

BUSINESS PLAN

Section 1

Business Overview

Products & Services

Thuraya platform offers digital tourism services that help users explore tourist destinations within the Kingdom of Saudi Arabia. Thuraya provides information about tourist places and various experiences, in addition to the possibility of booking suitable tourist packages for users. The platform also allows secure electronic payment

What We Actually Offer?

Easy Booking System: Thuraya website have a friendly interface. Users can book different travel services quickly and easily

AI Chat Assistant: Thuraya website has a digital assistant (Chatbot) that works 24 hours a day. It can answer users questions instantly and give users special discount codes to gain users loyalty and make users more interactive

Reviews and Ratings: Thuraya website has a section where users can share their experiences. This helps new customers see honest feedback and shows the credibility of a Thuraya website for new customers.

Implications or Risk Factors

Every business has challenges. Here are the three main risks for Thuraya:

Competition: There are many other travel websites. We compete with big global companies and also with the new local startups companies in Saudi Arabia.

New Rules (Regulations): The government might change the laws for tourism or online shopping (e-commerce). We must always stay updated to follow these new rules.

The Weather and Seasons: In Saudi Arabia, fewer people travel during the very hot summer months. Also, the outside of major holiday seasons.

In addition, users may have difficulty trusting new platforms at first.

BUSINESS PLAN

Section 1

Business Overview

Planned Response

To deal with the risk and challenges, the Thuraya platform will focus on providing an easy and simple user experience, in addition to providing reliable information about tourist destinations. Secure electronic payment systems will also be used to enhance user confidence. And we will focus on:

Following New Rules: Our legal team stays in close contact with the Ministry of Saudi Tourism. We make sure our website always follows the latest laws for online shopping and travel.

Fixing the "Slow Seasons": During the hot summer or quiet months, we offer indoor activities. This includes museum tours and we can promote to cold regions in Saudi Arabia such as Abha and Taif. Also, we can provide special packages for people coming to business conferences in Riyadh.

Better Technology and Safety: To keep your money safe, we use secure payment systems. We also improve our AI chatbot so it can help many customers at the same time without any problems.

THE COMPETITION

The competitors and their URL links of at least 2 websites (or mobile application)

Direct Competitors: These are local companies in Saudi Arabia that do what thuraya do

Visit Saudi: The official government platform

Almosafer: A very popular travel booking site

wafi: An application that reviews places, activities and tourist experiences in Saudi Arabia

Indirect Competitors: These are big international companies. They don't focus only on kingdom of Saudi Arabia but many tourists use them to book trips in Saudi Arabia (Expedia, TripAdvisor) competitors links:

Visit Saudi: <https://www.visitsaudi.com/en>

Almosafer: <https://sa.almosafer.com>

wafi: <https://apps.apple.com/sa/app/wafy/id1296267090?l=ar>

Expedia: <https://www.expedia.sa/?redirFrom=www.expedia.com>

TripAdvisor: <https://www.tripadvisor.com>

Competitors' Strengths and Weaknesses

Our competitors are strong because they have a lot of experience and resources.

Here is the Competitors Strengths:

Visit Saudi & Almosafer: These companies have huge amounts of money to spend on advertising. They also have strong support from the Saudi government or very large businesses.

Expedia & TripAdvisor: Almost everyone in the world knows these names. They have long-term deals with international airlines and the world's biggest hotel groups.

Competing sites are characterized by having a large user base and various services for tourist booking. However, some of these sites may be complicated for new users or focus on international booking more than domestic tourism within the Kingdom of Saudi Arabia.

BUSINESS PLAN

Section 1

Business Overview

Here is the Competitors Weaknesses:

High Costs: Because these companies are so large, they have many offices and thousands of workers and employees. To pay for these costs, they often charge travel service providers higher fees.

Simple and Generic Information: Big websites like Expedia often use automatic translations. They use the same descriptions for every country. And because of this they miss the special Saudi culture and the "Spirit of Saudi" that people and tourists want to see today.

Too Much Information: These websites like Expedia , TripAdvisor ,etc.. show everything for example the flights, hotels, cars, insurance all of these at once. This can be confusing for travelers and Tourists.It makes it hard for a tourist to find a simple and high-quality Saudi experience quickly.

Your Business Competitive Advantage

Thuraya's platform is characterized by its focus on tourism within the kingdom of Saudi Arabia in particular, which helps users discover local destinations easily in an attractive way. Thuraya's also provides a simple and interactive user experience through the use of a chatbot and a dedicated messaging system. In addition, the platform encourages interaction by providing discount codes to users, which enhances customer satisfaction and increases the use of the platform, here is Thuraya Competitive advantages :

Hand-Picked Experiences: Big websites show thousands of different options, which can be confusing. Thuraya focuses on high-quality, special Saudi experiences. We choose the best ones for users so it is much easier for users to decide.

Smart and Fast Service: We use Smart marketing and an AI Chatbot. That was designed to give the user the help they needed instantly. We also offer special discount codes that are connected to real Saudi festivals and events.

Content Update: We provide up-to-date and popular content about tourist places and areas in Saudi Arabia.

FINANCIAL SUPPORT

In the first phase, the Thuraya platform will be developed as a student project using the technical resources available to the team such as website development tools and databases. If the project is developed in the future into a commercial project, it can be financed through private investments or partnerships with tourism companies and tourism service providers within the Kingdom of Saudi Arabia. Also we can Seeking support from the Ministry of Tourism's investment programs designed to empower digital transformation in the tourism sector.

YOUR BUSINESS IMPACTS ON INDIVIDUALS, BUSINESS AND SOCIETY

Thuraya platform facilitates users' access to tourist information and various destinations within the Kingdom of Saudi Arabia, which helps individuals to plan their trips easily. Thuraya platform also provides an opportunity for tourism companies and service providers to promote their services and reach a larger number of customers through the platform. At the community level, Thuraya platform supports the development of domestic tourism and the promotion of digital transformation in the tourism sector in line with the Kingdom's Vision 2030. Thuraya aims to make a positive difference in three main areas:

1. Impact on Individuals

Better Experiences: Travelers get a personal journey using our AI chatbots and special recommendations.

Easy to Use: Both local and international tourists can find, book, and pay for their whole trip in one place through Thuraya platform .

2. Impact on Businesses

Reaching More People: Small Saudi tourism businesses can show their services to the whole world and users through our Thuraya platform.

Growing and Successful Together: Because we make money through (commission) when our partners make a sale, we both work hard to succeed together.

3. Impact on Society

Saving Saudi Arabia Culture: By showing people hidden historic sites through our platform, we help to keep Saudi Arabia traditions alive.

Fair Growth: By promoting different regions across the Kingdom of Saudi Arabia, we help bring money and development to all parts of Saudi society, not just the big cities.

ELECTRONIC PAYMENT SYSTEMS AND DIFFERENT METHODS OF IMPLEMENTING PAYMENTS SYSTEMS IN YOUR ONLINE BUSINESS.

Thuraya has a comprehensive and secure payment system it support multiple payment methods to meet different customers' preferences. The payment system is implemented in the cart page and only for registered and logged-in users can make a payment. Thuraya offer three different payment methods that all are all SSL-secured, PCI-compliant, and Encrypted, which are:

1. Credit Card: the user can pay through VISA card, or Master Card, or local saudi MADA card. By filling the card details (Name, number, expiry date, cvv code). There are validations that are applied using JavaScript on the card details to reduce errors, such as the card number must be 16 digits.

2. Apple Pay: only for iOS users it provide a fast and secure payment experience. Its a one-click payment option secured by Face ID or Touch ID without the need to manually enter any details.

3. PayPal: also users can pay through PayPal which is a widely used platform for payment that is used by so many users. In Thuraya if the user select paypal option they will be informed that they will be redirected through PayPal's secure platform, which is protected by PayPal Buyer Protection.

Payment Process Flow:

1. The customer add trip package to the cart after choosing the desired date.
2. In the cart customer can control the quantity and the subtotal, tax15% will be added to be Total.
3. The customer can enter a promotion code and after that they click apply, discounted amount will appear and the total will be updated automatically.
4. The customer chooses the preferred payment method and clicks the pay now button.
5. The system sends order data securely to the server.
6. The server checks if the user is logged in. If not it will redirect them to the login page.
7. Then the system records the order data in the database and clears the cart and the customer is redirected to the home page.
8. The booking details appear in the user account in account page.

BUSINESS PLAN

ADDITIONAL INFORMATION

Thuraya's website focuses on customers looking to explore tourist destinations in Saudi Arabia. Most of the customers are young people and families who use the internet to plan their trips so the platform also caters to international tourists interested in discovering Saudi culture and tourist attractions.

BUSINESS PLAN

Section 2

Sales and Marketing Plan

Suppliers

	NAME \ ADDRESS	TERMS	PRODUCT / SERVICE
1	Local Tourism Companies	Partnership agreement	Tourism packages
2	Hotels and Resorts	Booking partnerships	Accommodation services
3	Payment Providers (PayPal / Apple Pay)	Secure payment processing	Online payment services
4	AI Chatbot Service	Technical integration agreement	Customer support chatbot on the website
5	Website Hosting Provider	Service agreement	Website hosting and server services

ADDITIONAL INFORMATION

Suppliers collaborate with the platform to provide tourism, accommodation, secure payment and technical support services to ensure a seamless customer experience.

Advertising & Promotion

Thuraya's website promotional methods are diverse because advertising and promotion are important elements for attracting customers and increasing platform awareness. These promotional methods include:

- Advertising on social media platforms such as Snapchat, TikTok, and Instagram.
- Collaborating with travel influencers to promote tourism experiences.
- Offering seasonal discounts and special promotions to customers.
- Participating in tourism events and exhibitions in Saudi Arabia.
- Share the customer reviews and feedback on the website and social media platforms.

BUSINESS PLAN

Section 2

Sales and Marketing Plan

Pricing & Distribution

Thuraya offers a variety of tourism services at different price points, depending on the type of experience, its duration, and the services included. Prices range from 450 SAR to 8,200 SAR depending on the chosen tourism package.

The platform considers competitor pricing and customer demand to provide competitive and reasonable rates for its services.

Services are distributed electronically through the Thuraya website. Customers can browse tourism experiences, select the appropriate package, and complete the booking and payment process directly through the platform.

Customer Service Policy

The platform aims to provide high-quality service and support to all users, as customer satisfaction is Thuraya's top priority.

Customer service policies include:

- Prompt responses to customer inquiries.
- Providing support via email and live chat.
- Assisting customers in resolving booking issues or making modifications.
- Handling complaints professionally and with integrity.
- Ensuring the security of electronic payment transactions and protecting customer information.

BUSINESS PLAN

Section 3

Operating Plan

Location of your business office (if you have physical location)

For Thuraya is an online-based business and does not have a physical office location so all services are provided through the website, and the team manages the platform operations remotely.

Equipment, Furniture & Fixtures

Since Thuraya is an online business, the required equipment includes:

- Computers and laptops to manage the website
- High-speed stable internet connection
- Basic office software for communications and administration
- Mobile devices for website testing and customer service

Do you own a server for your website or is it SaaS?

Thuraya's platform will use Software as a Service (SaaS) hosting services instead of owning a server. The website will be hosted by professional hosting providers to ensure stability and security.

Advantages or Disadvantages of owning a server or of SaaS option.

Advantages:

- Lower cost compared to owning a server
- Easy maintenance
- Easy update
- High security
- Ensure reliability

Disadvantages:

- Limited control over server configurations
- The dependence on the hosting service provider

BUSINESS PLAN

Section 3

Operating Plan

Future Expenditures / Technology Requirements

In the future, Thuraya may invest in :

- Developing a mobile application
- Expanding online payment options
- Add more destinations
- Make the booking of hotels directly through our website, not through a middleman.

Built: HTML, CSS, JavaScript and php to create a simple data storage and user-friendly interface

Lunched: The website will be launched using hosting services such as Bluehost, which provides domain registration and website hosting services.

Evaluated: The platform will evaluate website performance by collecting customer feedback to improve the website design and user experience.

Overview of Functional Requirments

- Show tourism experiences and packages
- Allowing customers to book tourism services online
- Secure online payment processing
- Customer account registration and login
- Providing customer support through the website chatbot

Overview of Security Requirments

- SSL encryption to protect data
- Secure payment gateway
- Authentication and secure login system
- monthly system monitoring and updates

Overview of Privacy Requirments

- Keeping personal information confidential
- Using secure databases to store user data
- we don't share customer information with third parties
- Providing a clear privacy policy on the website

ADDITIONAL INFORMATION

POLICIES AND PROCEDURES

Hours of Operations in a week

Thuraya platform operates 24 hours a day, seven days a week, where users can browse the site, book tourist packages and complete electronic payments at any time. The management team works 40 hours a week (Sunday to Thursday) to talk with our business partners and also they check the platform everyday from Sunday to Thursday to make sure the platform works without problems.

Number of Employees

In the first phase, the Thuraya platform team consists of three members responsible for website development, content management and user service. As the platform expands in the future, the number of employees to support operational and marketing processes may increase.

Vacation Program

Employees receive annual leave in accordance with the labor policies in the Kingdom of Saudi Arabia. Additional leaves can also be granted according to the working conditions and needs of employees, while ensuring the continuity of services on the platform . Also we give every employee 30 days of paid vacation each year. We also give holidays for Saudi National Day, Founding Day, and Eid al fater and Eid al adha.

Performance Assessment

We check the performance of our employees in the Thuraya platform periodically to ensure the quality of work and improve the level of services provided to users. The evaluation depends on the extent of task completion, the quality of performance, and the level of collaboration among thruraya team members. This helps us to improve performance and achieve the platform's goals better. And we look at how many people visit our website, how many bookings are made, and if customers give us good ratings.

Training & Development

Thuraya platform is keen to develop the skills of the team by providing training and continuous learning opportunities in the fields of technology, digital tourism and customer service. This contributes to improving the efficiency of the team and keeping up with developments in the field of e-commerce and digital tourism, We provide training for our team in two areas:

1. Online Safety: How to keep customer payments safe.
2. Customer Service: How to use the AI chatbot and solve customer problems quickly

Objectives / Description of the Project

Thuraya is a Saudi digital tourism platform designed to support Vision 2030 by digitalizing travel services inside Saudi Arabia. Thuraya connect travelers with tourism businesses through the platform which allows users to discover destinations and carefully created tourism packages and complete booking easily through secure payment methods. all in one place. Thuraya's platform targets both local and international travelers with a focus on young people and families who rely on digital platforms to plan their trips. Thuraya earns revenue by taking a commission from tourism businesses if a user complet booking through the website. The main goal of Thuraya is to promote domestic tourism and preserve Saudi cultural heritage and contribute to the digital transformation of the tourism sector in Saudi Arabia.

Products and Services

In thuraya we offer digital tourism guide services and focus on destensins in saudi arabi. The platform has 15 curated tourism packages. We have 5 categories for the trips (Historical, sea, mountains, adventure, and luxury). The price range is 450 SAR up to 8,200 SAR according to the package category and duration of each trip. Each package has detailed information such as (trip description, duration, activities, and available dates). Also Thuraya has multiple payment methods (Credit Card, Apple Pay, and PayPal) that are all secure. Another feature is an AI-powered chatbot that is available 24/7 to help with customer support, a personalized user account page that display booking history and controlling options, and a customer feedback section where users can share their feedback.

Our Story

Thuraya was created because we noticed that most platforms overwhelm visitors with too much information, so we built a simple, practical guide that delivers the essentials without complexity.

Behind every name shines a story. Ours is one of passion, creativity, and pride.

We are the stars that brought Thuraya to life, inspired by Saudi Arabia's light that guides and uplifts the world.

Meet The Stars

Jana Alajaji

Short Bio

I'm Jana Alajaji, a Computer Information Systems student with a passion for discovering new technologies and solving real-world problems. I love diving into challenges, learning fast, and turning ideas into practical digital solutions. Leading projects and collaborating with teams motivates me to push boundaries and bring out the best in myself and others. My curiosity and determination drive me to explore cybersecurity and innovate in every project I take on.

Professional Interests

- Cybersecurity & Ethical Hacking
- Web Development
- Tech Innovation & System Design

Education & Courses

- Major: Computer Information Systems, 3rd Year, IMSIU.
- HTML & CSS - Tuwaiq
- Excel - IBM
- Python - KAUST

Experience in This Project

I led this project, coordinating our team and ensuring we stayed on track. I constantly engaged in self-learning, researching new techniques and solutions on YouTube and other resources to help us improve our project. This approach allowed me to guide the team in developing the best possible version of our work. Through this experience, I strengthened my leadership, teamwork, and technical skills, and gained confidence to tackle bigger projects in the future.

[Visit LinkedIn](#)

Shahad Alotaibi

Short Bio

I am shahad alotaibi information systems student in my third year. I enjoy Creativity and teamwork. I have strong skills in time management, collaboration and meeting deadlines. Passionate about constantly expanding my experiences in my field.

Professional Interests

- Web Development & Programming
- Artificial Intelligence (AI)
- Data Analysis & Design

Education & Courses

- Major: Computer Information Systems, 3rd Year, IMSIU.
- Dart, Python, Cloud Computing
- Data Analysis

Experience in This Project

Through this project, I gained experience in working with multiple programming languages. I understood how to build both the front-end and back-end and connect them to a database. I developed a clearer understanding of how real systems function and how each layer of an application depends on the other. I learned patience, improved my teamwork and communication skills, and became more confident in solving unexpected problems on my own. This project pushed me out of my comfort zone. I stayed up many nights fixing issues, redesigning pages, and making sure everything worked smoothly. It taught me how to manage my time, commit to details, and deliver work that I'm genuinely proud of.

Shatha Alsahli

Short Bio

My name is Shatha alsahli, a third-year Information Systems student. I work in a focused and organized way, and I enjoy learning new technologies step by step. One of my strengths is solving problems calmly and improving my work with every attempt.

Professional Interests

- Web Development
- Business Analysis
- UI/UX Improvement

Education & Courses

- Major: Computer Information Systems, 3rd Year, IMSIU
- HTML, CSS, PHP
- JavaScript Projects

Experience in This Project

Through this application development project, I learned how to connect different web technologies together and build a complete system. The experience helped me understand real problems in coding, how to fix errors, and how to improve the user interface. It added confidence to my skills and made me more comfortable working with HTML, CSS, PHP, and JavaScript.
